

General Comments by Survey Respondents

Perspective	General Comments
Agency or institution	great job, as always
Agency or institution	N/A
Agency or institution	Great job. Very clear and well organized
Agency or institution	Thanks for putting on yet another excellent, informational presentation\!
Educator	very informative
Forester	excellent presenters\!! knowlegible smart
Forester	?
Forester	Wonderful presentation and information sharing, thank you\!
Forester	Thank you
Forester	Well presented.
Forester	excellent presentation
Forester	Jeff as always gives a great presentation., lots of info, but succinct and always presented in a very understandable way
Forester	Great sharing of information.
Forester	Good job\! Good timing with next week's demo
Forester	Great talk..appreciate the effort in relaying your knowledge.
Forester	well done presentations
Forester	Speajers were knowledgable and well spoken
Forester	Interesting
Forester	The sites that most need a slash wall are the sites where there are too few trees to build a slash wall.
Forester	I'm grateful to learn about the many factors (planning) that should be addressed before and after the implementation of constructing a slash wall enclosure.

Perspective	General Comments
Forester	Excellent presentation.
Forester	nicely presented
Forester	Both were knowledgeable and communicated clearly
Forester	Both did a great job
Forester	Well presented. I have visited a slash wall installation and the results are impressive.
Logger / Forest practitioner	Very informative
Logger / Forest practitioner	Although, it is a very interesting process it is applicable to my harvesting.
Maple/Agroforestry Producer	Fantastic presentation! I really appreciate the extra time at the 12PM talk to answer additional questions.
Natural resources specialist	Very informative. Details on what is needed for success very important.
Natural resources specialist	Great info and presentations
Natural resources specialist	was nice to see basic details of construction and data analysis too, very nice pictures
Natural resources specialist	A LOT of info on some of those slides to try to keep up with...
Other (please indicate)	Very informative and interesting
Other (please indicate)	Well done presentations. New topics for exploration as a result of attending (and perhaps worthy of future webinars) include young forest management within slash enclosures and the differences between seedling and stump shoots.
Other (please indicate)	i like seeing the data from exisitng projects and the participation of other practitioners in the presentation.
Other (please indicate)	Great presentation, very informative
Other (please indicate)	Great presentation, very informative
Woodland owner	Greta Presentation. The presenters were very knowledgeable.
Woodland owner	Peter always delivers a great program and recruits effective speakers.

Perspective	General Comments
Woodland owner	Good presentation
Woodland owner	Excellent
Woodland owner	experience of both speakers impressive
Woodland owner	Very thorough presentation
Woodland owner	Thanks for helping to fill in the gaps in knowledge from a small landowner perspective. The firm advice from Jeff Ward to use a knuckle boom instead of a grapple to build a slash wall was by itself invaluable\!
Woodland owner	The slash wall / regeneration studies are valuable to me, even though I have small acreage.
Woodland owner	excellent presentation, thanks
Woodland owner	Well presented and always enjoy multiple perspectives from other areas
Woodland owner	Nice job\!
Woodland owner	Excellent update. Fascinating forest conversion ecology.
Woodland owner	Thank you for conducting all this research on slash walls. You have answered the questioned "Can we help create regeneration in our woodlands?" with a resounding YES
Woodland owner	Building walls in my woodlot with bedrock ledges(with pathways deer use) would seem to be an expensive indevoured to build a slash wall. .
